

Irina Stefan - Beautiful Life

текста е наличен благодарение на Tekstove.bg

Your smile is my weakness
Your eyes magic potions - they enrapture me
Your laugh is my music
That never left my mind

And I wish you could hear all the words
I'm scared to tell you
It was you all along in my heart
Hope you feel the same too

I just wanna call you
To say how much I love you baby
You and I... such a beautiful life

Your touch is electric
Your kiss sends a shiver racing down my spine
Unravel you secrets
And tell the world you're mine

And I wish you could hear all the words
I'm scared to tell you
It was you all along in my heart
Hope you feel the same too

I just wanna call you
To say how much I love you baby
You and I...such a beautiful life

I just wanna call you...
I just wanna call you...
