Your smile is my weakness  
Your eyes magic potions - they enrapture me  
Your laugh is my music  
That never left my mind

And I wish you could hear all the words  
I'm scared to tell you  
It was you all along in my heart  
Hope you feel the same too

I just wanna call you  
To say how much I love you baby  
You and I... such a beautiful life

Your touch is electric  
Your kiss sends a shiver racing down my spine  
Unravel you secrets  
And tell the world you're mine

And I wish you could hear all the words  
I'm scared to tell you  
It was you all along in my heart  
Hope you feel the same too

I just wanna call you  
To say how much I love you baby  
You and I...such a beautiful life

I just wanna call you...  
I just wanna call you...
