[2x:]

I've been lost and I've been broken
I've been down the bar no hoping
I'm still reaching for the sun
Cause my best is yet to come
I've been rich and I've been poor
Had the houses, lost them all
But my father told me son
Your best is yet to come

So let it go, let it go
Cause we always make mistakes when we're young
Cause our best is yet to come
So let it roll, let it roll
All the haters, yeah they said that we were dumb
But our best is yet to come
But our best is yet to come
But our best is yet to come

[2x:]

La da di da da da
La da di da da da da
La da di da da da
Ain't no trick gonna get me down
La da di da da da
La da di da da da da
La da di da da da
Ain't no trick gonna get me down

I've been lost and I've been broken
I've been down the bottle hoping
I'm still reaching for the sun
Cause my best is yet to come
I've been rich and I've been poor
Had the houses, lost them all
But my father told me son
Your best is yet to come

So let it go, let it go
Cause we always make mistakes when we're young
Cause our best is yet to come
So let it roll, let it roll
All the haters, yeah they said that we were dumb
But our best is yet to come
But our best is yet to come
But our best is yet to come
