In a split second, blink of an eye,
I feel you close in my mind you are mine,
say yes, yes, yes.

Our bodies speak, you're turning me on,
come, come close to me, my soul,
say yes, yes, yes.

Just turn around and look at me
and let my body read your mind,
just let the vibes speak to you,
our souls connecting into one.

[Chorus: x2]
Feel our bodies moving in time,
can't you see you're blowing my mind?
Touch me, see me, feel me right now,
body language, body language.

Imagine your hands on my body now,
don't take my ... just let me observe,
say yes, yes, yes.

My heart beats faster, not turning back,
just melt into one, get lost in time,
say yes, yes, yes.

Just turn around and look at me
and let my body read your mind,
just let the vibes speak to you,
our souls connecting into one.

[Chorus: x2]
Feel our bodies moving in time,
can't you see you're blowing my mind?
Touch me, see me, feel me right now,
body language, body language.

Just turn around and look at me
and let my body read your mind,
just let the vibes speak to you,
our souls connecting into one.

[Chorus: x2]
