You see
What nobody else sees in me
Tell me baby would you rather close your eyes
Cause that's alright

I know
It's hard to be dealing with my soul
It's broken and bruised
What do we do (x2)

[Chorus:]
So take me
Somewhere far faraway from here
Fix me up baby
Sew my brain up
And I don't wanna know what you find (x2)

You know
Me inside and out boy
I've shown you
The deepest parts of my mind
My mind

I know it's hard
But baby with you I'll be fine
I know I'll be fine

[Chorus:]
So take me
Somewhere far faraway from here
Fix me up baby
See my brain up
And I don't wanna know what you find (x2)

You see the way I brake inside
You pick up all the pieces
I'm not broken
Say I'm not broken

I know I need to stick around
I promise that I will not say
I'm not broken
Say I'm not broken

[Chorus:]

So take me
Somewhere far faraway from here
Fix me up baby
Sew my brain up
And I don't wanna know what you find (x2)
