Losing it all  
I'm going down to the river  
Where the water flows  
Will be healing my soul

Even all the good memories  
that left me like you did still makes me cry  
But all my brothers  
that never let me break down and now I fly

[Chorus:]  
And now I fly to the sky  
Flying so high  
La la la la  
Next to the glowing lights  
Flying so high  
La la la la la

What I'm craving is to  
Forget what you did  
Why you've done this to me  
Don't you feel devastated

Even all the good memories  
that left me like you did still makes me cry  
But all my brothers  
that never let me break down and now I fly

[Chorus:]  
And now I fly to the sky  
Flying so high  
La la la la  
Next to the glowing lights  
Flying so high  
La la la la la
