Let go of me, I'm better on my own.
This isn't me, this isn't me anymore.
Let me be free 'cause this isn't me .
Doesn't feel like me.

I didn't want, I never meant to.
So accidentally to fall in love with you.
I didn't want, I never meant to...
I never meant to...

I'm looking for a shelter.
Searching for a home.
Cause when you kick me out, to close that door.
I'm looking for a heart to love me more.
Just like I loved you, just like I loved you.

Just like I loved you, just like I loved you
'cause you loved me wrong.
Just like I loved you, just like I loved you
just like I loved you.

I was of fire, your heart of stone.
I loved you so right but you loved me so wrong.
Just like I loved you, just like I loved you.

You didn't see me, you didn't feel my pain.
You left me here, all by myself again.
Did you ever loved or I was just a game to you.
Was just a game to you...

I didn't want, I never meant to.
I lose myself on this, I sold my soul to you.
I didn't want, I never meant to...
I never meant to...

I never meant to fall in love. (x3)

Just like I loved you, just like I loved you
'cause you loved me wrong.
Just like I loved you, just like I loved you
just like I loved you.
