

Деси Слава - I'll pray

текста е наличен благодарение на Tekstove.bg

I have to wait in loneliness
will I ever have the chance to hold you?
Tell me how to fill this emptiness?
I wonder will you realize I love you?

[Chorus:]

And when I close my eyes at night
I see you always on my mind
and I picture all is true, we are together.
Then you kiss me, hold tight
and promise me that you'll find
a way to see me in the day, for this I pray forever.

Come to me and never go,
you're the only reason, that I live for
Don't you care, I miss you so?
I can't stand this pain in me no more.

[Chorus: x3]

And when I close my eyes at night
I see you always on my mind
and I picture all is true, we are together.
Then you kiss me, hold tight
and promise me that you'll find
a way to see me in the day, for this I pray forever.
