Fatal, this attraction, yeah we might just end up crashin'  
But I'm ready if it happens with you  
Meet me out in Cali when I'm far away from family  
And I need someone to hold onto

You're the only thing I know  
And I don't wanna let this go  
Close to you are I feel, feel like I'm at home  
Can't wait 'til we're alone

We were built to last  
We were built like that  
Baby take my hand  
Tighten this romance  
We could burn and crash  
We could take a chance  
Holdin' nothin' back  
Like it's our last dance

Like it's our last dance  
Like it's our last dance

My eyes wide open, fallin' in and out of focus  
Pressure flowin' like a river in my head  
Crying you ain't with me and it's floodin' the whole city  
While my soul's burnin' like a cigarette

You're the only thing I know  
And I don't wanna let this go  
Close to you are I feel, feel like I'm at home  
Can't wait 'til we're alone

We were built to last  
We were built like that  
Baby take my hand  
Tighten this romance  
We could burn and crash  
We could take a chance  
Holdin' nothin' back  
Like it's our last dance

Like it's our last dance  
Like it's our last dance  
Like it's our last dance  
Like it's our last dance

Way too soon to feel so strong  
Way too young to hurt so long  
I'm hurtin'  
Was it worth it?  
Way too soon to feel so strong  
Way too young to hurt so long  
I'm hurtin'  
Was it worth it?

Like it's our last dance  
Like it's our last dance  
Like it's our last dance

I'll fall in love  
I'll fall in love  
I'll fall in love  
I'll fall in love  
I'll fall in love  
I'll fall in love  
I'll fall in love
