

Last Night - Liar

Said you need me, then you just go
Then you just go with all my love
Said you need me, then you just go
Then you just go with all my love

You said you love me
You said you need me
And I've waited all night long
But you're a liar, set me on fire
And you played me all along

All along, yeah, you were lying
You were lying, yeah
I can see that you were trying
Trying to play me
