Are you watching on me
When I'm sleeping next to your arms
Only now it should be
A moment to heal the scars

We can't be enemies forever
You can be on my side tonight
We used to be in the game together
Now we only know to fight

I'm a liar, you're a liar
Don't look into my eyes
I'm a liar, you're a liar
We stand behind the lies
I'm a liar, you're a liar
Don't break into my soul
I'm liar, you're a liar
My heart is like a stone

When you're looking at me
I forget about all the pain
When I'm turning away
You just try to put me on blame

We can't be enemies forever
Baby there is no golden mean
We used to be in the game together
Tell me who is gonna win

I'm a liar, you're a liar
Don't look into my eyes
I'm a liar, you're a liar
We stand behind the lies

I'm a liar, you're a liar
Don't break into my soul
I'm liar, you're a liar
My heart is like a stone

No, no, no, no, no
I'm tired of all this lies
No, no, no, no, no
Should we stay or should we part
No, no, no, no, no
Please don't look into my eyes
No, no, no, no, no
You can break you can melt my heart

I'm a liar, you're a liar
Don't look into my eyes
I'm a liar, you're a liar
We stand behind the lies

I'm a liar, you're a liar
Don't break into my soul
I'm liar, you're a liar
My heart is like a stone
