I've seen you over there, keep watching
You got me thinking about the same thing
Why still care?
And after all these years I've wasted
I could wait more, you said I'm crazy
Am I so?
I've seen you over there, keep watching
You got me thinking about the damned thing
Why still care?
And I've been thinking about the same thing
You got me thinking about the same thing
Why still care
