Can you tell me why you wanna leave me
Cuz I know you mean a lot to me
Imagine us together
You and me forever
Just repeat
That's all I need

Boom Boom Tarara
I'll never stop loving you
Boom Boom Tarara
I want you back I'm beggin you
Boom Boom Tarara
I planned our trip to galaxy
Baby please believe in me

[Chorus:]
I need you love love like it was before
I miss your voice why don't you call me more
I feel so lonely in my soul and my head
I need your love even if I know it's bad

I need you

I always think that I'm stupid cuz I love you more and more
And every time when you leave and you forget to close the door
I start to run after you
Why I can't stop chasing you
I can't stop calling your name

Boom Boom Tarara
I'll never stop loving you
Boom Boom Tarara
I want you back I'm beggin you
Boom Boom Tarara
I planned our trip to galaxy
Baby please believe in me

[Chorus:]
I need you love love like it was before
I miss your voice why don't you call me more
I feel so lonely in my soul and my head
I need your love even if I know it's bad

I need you

I try to escape away from you
And forget the memories we grew
I want you to go away
Say what you wanna say
You ready or no
Please let me know

[Chorus:]

I need you love love like it was before
I miss your voice why don't you call me more
I feel so lonely in my soul and my head
I need your love even if I know it's bad

I need you
