Do you remember when you kissed me for the first time
I still remember your smell is on my mind
I love the way you're lying, love the way you're crying,
love the way you're smiling.

Do you remember when we laughed till the morning sun
I still remember your face is on my mind
I love you when in the sunlight, love you in the moonlight,
love you in the starlight.

[Chorus:]

I will never ever ever give up on you. (x2)
I will never give up on you
never give up on you
never give up on you.
I will never ever ever give up on you. (x2)
I will never give up on you
never give up on you
never give up on you.

Do you remember when you kissed me for the first time
I still remember your smell is on my mind
I love the way you're lying, love the way you're crying,
love the way you're smiling.

Do you remember when we laughed till the morning sun
I still remember your face is on my mind
I love you when in the sunlight, love you in the moonlight,
love you in the starlight.

[Chorus:]
