Everyone's watching
Never thought we would make it
everyone's waiting
Till we're making a mistake - yeah
But baby what goes up, is coming down
That's just the way it is
through the smoke and through the fire
We'll be making our escape - yeah.

Cuz one day, world is crumbling
we'll just, build it, up again.

Watch me light up
Watch me light up
Watch me light up, in the sky
From the ashes
From the madness
Will survive

[Chorus:]
Cuz all we gotta do is rise
Up like a phoenix
Rise, up like a phoenix
From the fire and the dust
there ain't gonna be no stopping us
we will rise
like a phoenix, we will rise.

There wouldn't be a heaven
if hell wasn't so close
and we wouldn't be winners
without never having lost - no
our love is like a key, to break us out
and when they fire again
we'll put on that armor
and let the words ricochet

Cuz one day, world is crumbling
we'll just, build it, up again.

Watch me light up
Watch me light up
Watch me light up, in the sky
From the ashes
From the madness
Will survive

[Chorus: x2]

And all we gotta do is rise
Up like a phoenix
Rise, up like a phoenix
From the fire and the dust
there ain't gonna be no stopping us
We will rise
like a phoenix, we will rise.
