Emil Lassaria ft. Caitlyn - Summer Sun

текста е наличен благодарение на Tekstove.bg

I never thought that I could love you so much Until you showed how deep is your love, is your love The summer when you kissed me for the first time It felt so good that I could not sleep anymore

It's summer in my heart Uh in my heart

I guess I found my love I was so blind, it was so close When I saw at my door I knew that it was you

There are the summer nights You and I it's paradise Hope you won't do me wrong Feel in love, I feel in love

It's summer in my heart Uh in my heart

I never thought that I could love you so much Until you showed how deep is your love, is your love The summer when you kissed me for the first time It felt so good that I could not sleep anymore
