I see you again
Your eyes as deep as the skies
Burning a flame
Inside my body so bright

Boy just hold me tonight
Oh, so tight
Forever with you by my side
Baby now take me high
Through the night
Is it obsession you just tell me right

Wanna feel your skin
Softly touching me
Love comes over maybe
Stay with me endlessly

Boy just hold me tonight
Oh, so tight
Forever with you by my side
Baby now take me high
Through the night
Is it obsession you just tell me right
