Вълшебен свят.

Planet Earth, that's the name of my place,
I'm born in this world, in the entire space.
Planet Earth is my home, is my face,
follow your trace, embrace this human race.
In case, there's a new decade in human history,
I'm talking about respect, this is my destiny.
Feel free and stop running away,
from the doubt in your mind, never fade to grey.

Припев:

Мечтите ни летят, вълшебен свят,
сърцата ни блестят, вълшебен свят за мен.
Мечтите ни летят, вълшебен свят,
трябва само шанс за пореден път, вълшебен свят.

Вълшебен свят.(x2)

Planet Earth, gentle and blue,
then cold as a rock, or ice without a hue.
Planet Earth made out of dust,
a big ball of metal, condemned to rust.
Pray, let your soul be free,
find out how to heal a bleeding wound, don't stand around.
Life could be paradise, peace on Earth is what I found,
all around in a magic world, from the air to the ground.

Този наш вълшебен свят.(x7)

Припев:

Светът е неделим, единствен лик любим,
къде е рая знай, магия щедро ти отдай.
Една хармония, една история родена в пъстър свят,
с любов и слънце е огрят.

Вълшебен свят.

Planet Earth, that's the name of my place,
I'm born in this world, in the entire space.
Planet Earth is my home, is my face,
follow your trace, embrace this human race.
In case, there's a new decade in human history,
I'm talking about respect, this is my destiny.
Feel free and stop running away,
from the doubt in your mind, never fade to grey.
