Yeah
Wait for a minute
Can wait for a minute?
Yeah, wait for a minute
Wait for a minute
Girl, just a minute

Well, if you walk with me Well, if you take my hand babe We can go to a place you ain't never seen before

Slow dance in the moonlight I'm just tryna set the mood right I'm just doing what a dude do Do it over and over

Quickly wanna run with me now Swiftly just come with me now Foot steps go to the beat now Over and over and over

It's just the way, that way, that way, that you do me babe All, I can say, that say, that say, that I'd behave But I'd be lying babe

Just wanna wait for a minute (wait for a minute)
Wait for a minute, babe (wait for a minute)
Just wanna wait for a minute (play for a minute)
I dream place for a minute, place for a minute babe

[Tyga]
